**Note: You may choose the exact menu design you would like from our book of pre-built choices. However note that they are not all created equal, and do not all have the same options. Some for example will not display thumbnails; others will not allow a full 32 characters of text, etc.**

**In the case of a contradiction of information, and we are unable to contact you for whatever reason, we will use our best judgment to work out a suitable resolution. Usually this will mean choosing a different menu format.**
